Sir:

In response to the Official Action mailed May 17, 2006, a Petition and fee for a one month Extension of Time being submitted herewith, please reconsider this application in view of the following remarks. Claims 23-31 are pending.

Examiner Tran is thanked for the courtesies extended to the undersigned during a telephonic interview held July 5, 2006. The Examiner Interview Summary Record reflects the substance of the interview. One additional point discussed during the interview is that claim 23 does require complete dissolution of the silica-xerogel over a desired time period when in contact with body fluid.
